

BA (Hons) Spanish CBCS

About the Department

The Department offers B.A. (Honours) CBCS courses in four different European languages, namely, **French, German, Italian and Spanish**. These courses have been designed adopting the Task based and Communicative Approach, i.e. the latest Foreign Language Teaching methodology, in order to enable learners to attain the language competency levels specified by the internationally accepted Common European Framework of Reference for Languages (CEF), developed by the European Council. All the four programs follow a common structure, prescribed by the UGC guidelines on Choice Based Credit System. Each course aims at imparting specific linguistic skills as well as life skills that would help learners to communicate effectively in real life situations. Our endeavor is to integrate real life communicative situations in the language class rooms with the help of concrete tasks and project based collaborative teaching-learning.

The B.A. (Honours) CBCS programs serve the following purposes:

- Develops communication skills in the chosen language and helps to acquire a broad understanding of the society, history and culture within which these languages have developed and are used.
- Integrates knowledge of social and political institutions, historical events, and literary and cultural movements into the acquisition of the four linguistic skills - reading, writing, listening and speaking. Develops language skills and critical thinking.
- Enables students to attain B2 level at the end of the program by completing stages of language learning specified by the internationally accepted Common European Framework of Reference for Languages (CEF), developed by the European Council.
- Equips students to continue their studies in a postgraduate programme in language, literary and cultural studies
- Provides students with the competences necessary to immediately enter professional life for a variety of employment opportunities (in translation, interpretation, tourism, foreign language teaching at the school and equivalent levels, publishing, the print and electronic media, and in other emerging areas in the corporate world where knowledge of a foreign language is either required or seen as an advantage).
